

FLUXON

BATTERY IMPACT WRENCH

1/2" 1080 Nm

art.code:

IWC12N10

A number of characteristics of the Fluxon impact wrench:

- For projects requiring high torque
- Accurate stepless speed control thanks to brushless motor
- Includes battery indicator
- Directional switch that automatically activates the trigger lock in the central position
- Power program button with which Full power, half mode, key hold and a special auto break mode can be selected
- Powerful built-in LED work light that illuminates the work area without the need for an additional light source
- Integrated air cooling prevents overheating

Brushless motor

Breakaway force 1080 Nm

Inclusive power program

Auto break mode

COB LED work lamp

Specifications

Voltage	20V
Square drive	1/2"
No-load speed	1500 / 1900 / 2400 RPM
Impact IPM	1500 / 1900 / 2200 IPM
Max breakaway force	1080 Nm
Tightening torque	300 / 500 / 860 Nm
Shaft length	170mm
Height incl. battery	280mm
Battery	20V, 4.0Ah, lithium-ion
Weight with battery	2.55kg
Weight without battery	1.9kg
Bolt size	M10-M24
